Jason,

We have not issued the proposed plan yet. We expect to soon but I'm not sure when. I will send you and the other PRP representatives copies of the proposed plans when they are issued. The proposed plans will include costs estimates for and descriptions of the remedial actions proposed for the in-water/aquatic lands portion of the Site. Feel free to call with questions.

Subject: RE: Transmittal of Star Pre-Design Evaluation Report

Good Morning Ted,

How have you been? I hope all is well. I have a meeting with the WA DNR to go over any updates on the Quendall Terminals matter. Per your last email, EPA was to issue proposed plans for the cleanup on 11/7/18. Were those plans released to the parties or are they part of the materials that you have already forwarded? Additionally, I need clarification on what cleanup measures are being planned for aquatic lands. Specifically, what method is EPA looking at and how much will it cost? Please let me know if you have any questions. Thank you and have a good week.

Respectfully,

Jason A. Foust

Assistant Attorney General
Natural Resources Division
Attorney General of Washington

Subject: Transmittal of Star Pre-Design Evaluation Report

Counsel,

This email transmits a copy of the STAR Pre-Design Report. The Report summarizes the pre-design STAR pilot project that EPA oversaw at the Quendall Terminals Superfund Site this summer. The Report describes, among other things, the field work and test results.

EPA intends to issue a proposed plans for the Quendall Terminals Site on November 7th,

2018. EPA will hold an open house and public meeting regarding the proposed plans between 1 and 5 pm on November 17, 2018. The meeting will be held at Risdon Middle School. The school's address is 6928 116th Ave SE in Renton, WA.

Please feel free to call or email me if you want to discuss Site related issues.

Thanks

Ted Yackulic
